## Synopsis

This first volume in the proposed series will address some preliminary issues that are typical of a 'prolegomena' in any systematic theology. It will focus on the following question: 'How does the story of who the Triune God is and what this God does relate to the story of life on Earth?' Or: 'Is the Christian story part of the earth's story or is the earth's story part of God's story, from creation to consummation?' This raises many issues on the relatedness of religion and theology, the place of theology in multi-disciplinary collaboration, the notion of revelation, the possibility of knowledge of God, the interplay between convictions and narrative accounts, hermeneutics, the difference between natural theology and a theology of nature, and the role of science vis-à-vis indigenous worldviews.
